CONSONANTS

Character	Description	Unicode (maj/min)	HTML
Ł ł	barred L	0141 0142	Ł ł
ʔ ʔ	upper & lowercase glottal stops*(mostly unavailable)	0241 0242	Ɂ ɂ
ʔ	original glottal stop* (mostly unavailable)	0294	ʔ

The following fonts can reliably render the original glottal stop: *Lucida Sans Unicode*, *Arial Unicode MS*. Upper and lowercase glottal stops used in the NWT are available only with a select number of fonts but should be used in preference.

All characters render with the *Aboriginal Sans* and *Serif* fonts available for free from www.languagegeek.com

VOWELS

Character	Description	Unicode (maj/min)	HTML
À à	A w/ grave (high tone)	00C0 00E0	À à
